

Melrose School Committee Policy Manual Introduction

This manual contains the official policies of the Melrose Public Schools. It is made available to all who are affected by its policies. All copies of this manual are the property of the Melrose School District, and effort should be made to keep it up to date as policy changes are made.

Policy development is one of the most important roles of the Melrose School Committee. It is through these policies that direction is provided to the school district. This process must be dynamic and ongoing. The committee must continually appraise the effectiveness of the existing policies, as well as the need for new policies.

The Melrose School Committee welcomes feedback from the public about these policies, which may be requests for clarification, feedback concerning implementation, or ideas for new policies that may be needed. Please forward your comments to the Chair of the Policy Sub-committee of the Melrose School Committee.
